Alicia Tsitsikalis - ADEME
Adel Mourtada - ALMEE
Rim Boukhchina - RCREEE

(*)MEETMED (Mitigation Enabling Energy Transition in the Mediterranean Region) is supported by the European Union

Background

MEETMED is an EU-funded project developed by the Regional Centre for Renewable Energy and Energy Efficiency (RCREEE) and the Mediterranean Association of the National Agencies for Energy Management (MEDENER) to foster energy transition in Southern and Eastern Mediterranean countries.

This event is part of Activity A1.1 of the MEETMED project, integrated in WP1, that aims to create a MEETMED Regional Expert Network (REN), prepare MEETMED Country Policy Papers on EE and RE national strategies and policies, organize a MEETMED workshop on EE and RE strategies and policies and two sub-regional MEETMED workshops on EE in buildings (building codes and green buildings rating systems) and on RE, and produce MEETMED reports.

In this event, participants will debate policy developments, best practices, initiatives and ideas that support the move towards clean, secure and efficient power in the Mediterranean region, as well as the state of the art of monitoring tools for EE and RE indicators.
